Discharging of sewage and effluent of rivers

2057. SHRI TRILOKINATH CHATURVEDI:
DR. MURLI MANOHAR JOSHI:

Will the Minister of ENVIRONMENT AND FORESTS be pleased to State:

(a) the names of places where untreated sewage and effluent is discharged in the Ganga, Yamuna and the principal tributaries including Alaknanda, Mandakini, Gauri Ganga, Pinder etc. and further down stream together with the names of places where the sewer and effluent is discharged after treatment and what action has been taken or proposed to be taken to stop the menace;

(b) whether Government are aware that a large number of tourists/pilgrims are visiting the Uttrakhand area leaving a lot of garbage and are polluting the environment and purity of the streams; and

(c) whether Government have formulated any plans and allocated funds for maintaining the purity of Ganga and Yamuna upstream from Hardwar and Paonta Saheb respectively; if so, the details thereof and if not, by when the matter is ikely to received Government's attention?

THE MINISTER OF STATE OF THE MINISTRY OF ENVIRONMENT AND FORESTS (SHRI KAMAL NATH): (a) The names of places showing the status of sewerage and sewage treatment along Ganga including Alaknanda and Mandakini, Yamuna and Gomti is enclosed as. Statement (See below) Under Ganga Action Plan Phase I, in 25 class I towns (having a population of more than 1 lakh in 1981), works of interception, diversion and treatment of sewage were taken up. Under Ganga Action Plan Pnase II, the remaining works in these towns and other Class II towns are proposed to be taken for interception, diversion and treatment of sewage based on the proposals received from the State Government. Out of 264 industries discharging their effluent in to the river Ganga in September, 1985, 68 grossly Polluting industries were identified for setting up of effluent treatment plants and treating the industrial effluent before discharge in to the river. An inventory of additional industrial units polluting river Ganga and its main tributaries is under preparation. Simultaneously, all these industries are being monitored by the respective State Pollution Control Boards for setting up of the effluent treatment plants and discharging the effluent after adequate treatment.

(b) It is true that a large number of tourists/pilgrims visit Uttrakhand area but the pollution of streams and environment due to visit of these tourist/pilgrims is of temporary nature. At various places, urinas and community toilets have been provided by the State Government for keeping the area clean and maintaining hygienic conditions. Central assistance has been given to Non-Governmental Organisation for setting up low cost sanitation. Garbage bins and Environmental awareness generation in Uttarkashi area.

(c) At the time of framing of Ganga Action Plan Phase II including the Yamuna component, the water quality of river Ganga and Yamuna above Rishikesh and Poanta Saheb respectively did not warrant any pollution abatment programmes and the works of Ganga Action Plan were initiated from Rishikesh downwards and that of Yamuna from Yamuna Nagar — Jagadri downwards. Also no proposals were received from State Govt. for these stretches.

Statement

A. *Towns situated along Ganga including Alaknanda and Mandakini status of sewerage and sewage treatment.*

S. No.	Name of Town	Status of sewerage and sewage treatment
1	2	3
	Uttar Pradesh	
1	Uttarkashi	Partly sewered. The State Government has prepared one sewerage scheme.
2	Badrinath	No sewerage provided.
3	Kedarnath	-do-
4	Joshimath	No problem of pollution. One crematorium constructed.
5	Gopeshwar	Quantity of sewage becomes negligible when it reaches river Ganga, therefore, no treatment arrangement.
6	Devprayag	10 urinals and 14 toilets provided; one sewerage scheme prepared.
7	Tehri	16 toilets and 22 unrinals provided. Population of town to be shifted to new Place where sewerage and sewage treatment is proposed.
8	Narandra Nagar	16 toilets and 22 urinals provided. No pollution problems as sewage travels 16 kms before reaching the river.
9	Srinagar	A sewerage and sewage treatment scheme has been proposed to the State Government.
10	Bageshwar	No problem of pollution.
11	Baliya	Quantity of sewage finding its way in river Ganga is negligible.
12	Bijnor	Quantity of sewage finding its way in river Ganga is negligible.
13	Mandawar	-do-
14	Anupshahar	-do-
15	Saidpur	Feasibility Report for sewerage and sewage treatment schemes prepared for Ganga Action Plan Phase-II activities.
16	Ramnagar.	-do-
17	Garhmukteshwar	-do-

16	Agra	-do-
17	Etawah	-do-

C. *Towns situated along Gomti and status of sewerage and sewage treatment.*

S. No.	Name of Town	Status of sewerage and sewage treatment
1	Lucknow	Partly swewred Gomti Action Plan for pollution abatement sanctioned.
2	Sultanpur	-do-
3	Jaunpur	-do-

वन्य जीवों के प्रति अपराध

2058. **चौधरी हरमोहन सिंह :**
श्री ईश दत्त यादव :

क्या **पर्यावरण और** वन मंत्री यह बताने की कृपा करेंगे कि :

(क) गत तीन वर्षों के दौरान वन्य-जीव संबंधी अपराधों के राज्य-वार तथा वर्ष-वार कितने-कितने मामले दर्ज किये गये हैं ;

(ख) उन पर अब तक क्या कार्यवाही की गई है ; और

(ग) क्या यह भी सच है कि वन्य-जीवों से संबंधित कानूनों को प्रभावशाली ढंग से लागू नहीं किया जा रहा है, यदि हां, तो इसके क्या कारण हैं?

पर्यावरण और वन मंत्रालय के राज्य मंत्री (श्री कमल नाथ) : (क) और (ख) पिछले तीन वर्षों के दौरान विभिन्न राज्यों में दर्ज वन्यजीव संबंधी अपराध के मामलों के संबंध में सूचना एकत्र की जा रही है और सदन के पटल पर रख दी जायेगी ।

(ग) जी नहीं । तथापि स्थिति की नियमित रूप से समीक्षा की जाती है और आवश्यकता एवं उपलब्ध संसाधनों के अनुसार उपचारी उपाय किये जाते हैं ।

Chemical used at Goa Sea

2059. SHRI JOHN F. FERNANDES: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether the chemical dispersant used at Goa sea to diffuse crude oil
